Introduction

Narration by Thayumanasmay Somasundaram:

Professors Usha and Namas Chandra have for the last two years taught today's participants how to read, write and speak Tamil language. The children learned the materials of today's program in their class. The parents and the children of today's program would like to say thanks to Drs Chandras for their dedication and efforts. First the children will give some information in English about the poetess Auvaiyar and her work. Then they will recite Aathichoodi one line at a time in Tamil followed by its meaning in English. The children will take turns during the narration and recitation. Thank you and enjoy!

Some Information About Auvaiyar

Narration by Vivek S.:

Auvaiyar's name is associated with at least three different Tamil poetesses who have lived during various times. One Auvaiyar lived during sangam time (200-300 BCE that is Before Common Era) and another Auvaiyar during the Chola empire (12 th century Common Era). The name Auvai means mother in Tamil, and the name Auvaiyar is synomyous with wise and elderly lady who gives advice in the form of

poems.

Narration by Rahul V.:

The Auvaiyar who was the court poet of a Chola monarch and was the contemporary of Kambar (who wrote Ramayanam in Tamil) and Ottakkuttar (who wrote Muvar Olla) was responsible for writing famous poems such as Athichoodi, Konraiventhan, Muthurai (Words of the Wise) and Nalvazhi (Path to Goodness). She found great happiness in the life of small children.

Narration by Abhinav H.:

Her works, Athichoodi (refers to Lord Shiva's son Ganesha) and Konraiventhan (again refers to son of Lord Shiva, Pillyar) written for young children and give them advice them in simple words how to live wisely. They are even now widely read and enjoyed both by children and adults. Now we will recite Athichoodi one line at a time in Tamil and tell the meaning in English.
